Markdown	★★★★★	IPFS	★★★★★	Collaboration	★★★★★
React	★★★★	MongoDB	★★★★★	Leadership	★★★★★
REST	★★★★★	MySQL	★★★★	Responsive Design	
GraphQL	★★★★★	Git/Github	★★★★★	★★★★★	

Education

2021-04 - 2021-09	**Full Stack Coding Bootcamp** *Northwestern University - Evanston, IL* A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Express, Regular Expressions, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js & ReactJS.

Experience

Project Manager – BootCampBox

Repository: https://github.com/BootcampBox/BootCampBox   **Live:** http://nubootcampbox.xyz

- **Role:** Primary Contributor
- **Summary:** Helpful dashboard for use in web-development environments. It integrates multiple links, sites, and tools frequently used within web-development lifestyles.
- **Primary Language:** Javascript
- **Other Languages:** HTML/CSS
- **Tools Utilized:** Firebase Auth & Firestore to create a full user experience without server access while hosted on GitHub Pages. Multiple API's to give user access to external data.
- Led my group to complete this website and successfully deploy in a span of 6 days.

Project Lead - TrashParty

Repository: https://github.com/Q-Gap/TrashParty   **Live:** http://trashparty.xyz

- **Role:** Primary Contributor
- **Summary:** NFT-style web app (for entertainment purposes): A website where once a day you open a pack of random stuff (data we collect from different API's – currently GIF's). Users can then trade each other or discard/pickup different Trash from the "Landfill".
- **Primary Language:** JavaScript - to create a dynamic end-user experience, make API calls, routing, and manage authentication
- **Other Languages:** HTML/CSS
- **Tools Utilized:** HandlebarsJS, express-session, MySQL, Sequelize, bcrypt, and various other libraries/frameworks
- Effectively worked with 3 other developers to maintain a concise GitHub Repository and successfully deploy meeting predetermined deadline.

Project Manager - Vicebrary

Repository: https://github.com/Max-Effort/Vicebrary   **Live:** https://vicebrary.herokuapp.com

- **Role:** Primary Contributor
- **Summary:** Web application which allows the end-user to store, contribute to and annotate items in personal library of vices.
- **Primary Language:** JavaScript
- **Other Languages:** JSX
- **Tools Utilized:** React (front-end), Nodejs (back-end), GraphQL (API), and MongoDB for the database design.
- Learned GraphQL and implemented with React and Express autonomously within allotted time frame of 2 weeks.
